

The Associate of Arts degree (A.A.) at JCCC is a general transfer degree and partners well with the first two years of most bachelor degree programs. Students pursuing the A.A. may select courses that satisfy both the A.A. degree requirements and lower division requirements for a bachelor's degree at four-year institutions. The elective hours within the A.A. allow students to complete additional general education and lower division courses required for specific majors. The A.A. degree requires completion of 60 credit hours, the maximum number of hours from a community college that will be applied toward a bachelor's degree at most four-year schools. **Meeting with a JCCC counselor is strongly recommended for selection of appropriate courses.**

- Baker requires 124 credit hours for the BS or BA degree. The last 31 hours of credit toward a Baker degree must be in residence.
- Of the 124 hours, 39 hours must be in courses numbered 300 and above. Although designated lower college (100 and 200 level) JCCC courses may fulfill major requirements, they will not count toward the 39 upper division hour requirement.
- Pass/Fail courses can be accepted IF the course syllabus explicitly states that a "P" is equal to a "C" or higher.
- All transfer coursework must be a "C-" or higher.
- JCCC students who wish to transfer must apply for admission to Baker. For information about the application process, please contact the Baker admissions office at <https://www.bakeru.edu/admissions/#undergraduate>.
- When transfer course credit is greater than Baker course credit, students will receive full transfer credit.
- Reference the academic catalog for a more detailed explanation of graduation requirements and degree programs at <https://www.bakeru.edu/registrar/registrar-baldwin-city/#catalogs>.
